**Reason for change and expected benefits/business motivation:**

During the Migration Weekend Dress Rehearsal (MWDR) of wave 2, an incident was raised due to the fact that pending instructions were not accepted by the Data Migration Tool (DMT) when they have the ISO transaction Code "ETFT" (Exchange Traded Funds).

This Change request aims at correcting the problem PBI000000157845.

**Description of requested change:**

The list of ISO transaction Codes of the DMT for Pending Instructions shall be aligned with the corresponding Data type "SecuritiesTransactionType7Code" of the A2A message.

More precisely:

- ISO transaction Code "ETFT" is in the list of codes in UDFS and also available in A2A (and also via GUI). DMT should be aligned accordingly (i.e. to include this ISO Transaction Code).
- ISO transaction Code "RPTO" is in the DMT but it is not available A2A (neither via GUI). DMT should be aligned accordingly (i.e. to remove this ISO Transaction Code).
