

PRESS RELEASE

EURO AREA INVESTMENT FUND STATISTICS MAY 2011

In May 2011, the amount outstanding of shares/units issued by euro area investment funds other than money market funds was EUR 44 billion higher than in April 2011. This increase was due almost equally to increases in share/unit prices and to net issues of shares/units.

The **amount outstanding of shares/units issued by euro area investment funds other than money market funds** increased to EUR 5,839 billion in May 2011, from EUR 5,795 billion in April 2011. Over the same period, the amount outstanding of shares/units issued by euro area money market funds increased to EUR 1,091 billion from EUR 1,071 billion.

Transactions¹ in shares/units issued by euro area investment funds other than money market funds amounted to EUR 22 billion in May 2011, while transactions in shares/units issued by money market funds amounted to EUR 8 billion.

The annual growth rate of shares/units issued by euro area investment funds other than money market funds, calculated on the basis of transactions, was 5.0% in May 2011, while the annual growth rate of shares/units issued by euro area money market funds was -4.5%.

1) Annual percentage changes are calculated on the basis of transactions.

2) The breakdown by investment policy is generally based on the types of asset in which the investment funds primarily invest, usually on the basis of a stated strategy (e.g. if the fund primarily invests in shares and other equity it is allocated to the "equity funds" category). Funds investing in both equity and bonds, without any prevalent policy for either, are allocated to the "mixed funds" category. Hedge funds are classified in line with the statistical definition set out in Guideline ECB/2007/9. In particular, they cover funds with relatively unconstrained investment strategies and few restrictions on the types of financial asset in which they may invest. If a fund cannot be classified as an equity, bond, mixed, real estate or hedge fund, it is included in the residual "other funds" category.

3) The shares/units of open-end funds can be redeemed out of the fund's assets. Closed-end funds are funds with a fixed number of issued shares/units.
